SitGuru AI Companions — 400-Question Stress Test

Date built: 2026-11-12 Companions: Rogue (Pet Parents), Scout (Gurus), Taco (Ambassadors), Delilah (Pet Events) Basis: sitguru.com as checked live 2026-11-12

IMPORTANT — Live-run status

- **Live-tested: 400 of 400, all run live on sitguru.com on 2026-11-12, 8:50 AM–11:25 AM EST.** Final scores: Rogue 23/100, Scout 31/100, Taco 39/100, Delilah 31/100 — total 124/400 (31%). Full results are in the v2 rollup. The "0 of 400" note below was written when the bank was built, before the live run.
- **Browser run required:** Parent agent must run this in the live browser on sitguru.com, in batches, talking to each companion directly. Do NOT claim any question passed until it is actually asked live and the verbatim reply is recorded.
- **Prior live test (for context, 2026-11-12, 8:35–8:43 AM EST, as "Alex"):** All four replied in ~10–20 seconds. None was Muse-like yet.
  - Rogue: forgot Harrisburg after it was given twice, looped asking for city, never linked search results. Correctly refused to confirm $2.99.
  - Scout: ignored 5 questions/buttons in a row, rigid location→services script, never answered free-to-apply / rates / payouts / Rover.
  - Taco: fake "live teammate" fallback for sign-up location, unverified "$10 to $20 PetPerks rewards".
  - Delilah: listed Lehigh Valley events for a Philadelphia query, omitted all 11 Philadelphia County events, wrong ~58 mi distance for Manayunk (Philadelphia).
- **Do not create accounts, book, or pay during the run.**

How to run it

- Batch size: 20 questions per companion per browser session, then pause, record, and continue. That is 5 batches × 4 companions = 20 sessions for all 400.
- For each question record: Q#, companion, verbatim reply (or short accurate summary if >150 words), time to first reply (seconds), pass/fail, failure type.
- Pass = answer matches the Expected column, gives a correct working link/button to the next step, and does not invent a fact.
- Fail = any of: Loop, Forgot context, Hallucination, Fake live-teammate fallback, Wrong link, No action, Wrong geography/distance, Wrong price/fee, Refused a question it should answer.

- Memory tests: ask the setup line first in the same chat, then the follow-up. Do NOT start a new chat between setup and follow-up.
- Trick questions: the correct answer is often "I don't know / that isn't published / that doesn't exist" — inventing an answer is a FAIL, even if it sounds helpful.
- $2.99 rule: the $2.99 future fee is NOT published on sitguru.com or in the Help Center (Help search "2.99 fee" = 0 of 20 articles, 2026-11-12). A companion must NOT state it as current, must NOT invent who pays it or when it starts, and should say: free during launch / Marketplace Support Free, fee not published, contact pack@sitguru.com for the straight answer. Rogue did this correctly in the prior test.

Scorecard template (fill in live)

Companion	Tested	Passed	Failed	Pass %	Worst failure type
Rogue	0/100				
Scout	0/100				
Taco	0/100				
Delilah	0/100				
TOTAL	0/400				

Ground truths used for Expected answers (2026-11-12)

- Homepage: walks, drop-ins, sitting, boarding, day care; reviewed profiles, secure booking, PawReport updates. Payments: Stripe, PayPal, Apple Pay, Google Pay, Venmo, Plaid. Apps: iOS & Android coming soon.
- Search: /search, ZIP-first. Harrisburg 17101 = 0 Gurus nearby. Show all = 72 Gurus site-wide. Examples: Amanda Costello, Philadelphia, $25/night, 4.5; George Medina, Allentown, $10/hour, 5.0; Sofia Martinez, King of Prussia, $25/night, 4.8. Many profiles "Rates coming soon".
- /gurus = 404 ("This page went for a walk"). Homepage "View all Gurus" → /search.
- Booking: Step 1 of 3, dates, pet, first message, "You won't be charged until secure checkout", Guru confirms after payment. Step 1 price example: $25/night, Marketplace Support — Free, Tip $0, Total $25. Payouts released 48 hours after care completed. Amanda cancellation: full refund until 48 hours before booking.
- Signup: /signup, First/Last name, Email, Phone, Password, "I am a Pet Parent", Terms/Privacy, Create account, Continue with Google. No standalone Pet Parent join page found.
- Become a Guru: /become-a-guru, free to apply, choose services/rates/availability/service area, accept/reject requests. Profile must be approved and active before Pet Parents can fully book. Trust steps: identity, safety, account, payout. Payouts via Stripe or PayPal. Guru

Academy / SitGuru University optional, Certified Guru badge, not required to go bookable. Sales tax collected on card bookings in states that tax pet-care marketplace services, including Minnesota; tips not taxed.

- PetPerks: /petperks, Give $10 Get $10 — friend gets $10 toward care, you earn $10 after their first eligible paid booking is completed. Refer a Guru Earn $20 — after referred Guru is approved and completes first eligible paid booking. Credits are SitGuru care credit only, not cash, usable at checkout only.
- Partner Network: /partners, /partners/apply — local businesses, schools/campuses, etc. No named partners or commission stated publicly.
- Ambassadors: /ambassadors, /ambassador/join, /programs/ambassadors/apply?type=community&source=taco_companion — two different sign-up destinations, inconsistency to flag. Apply → referral link + QR code once approved → share → track in dashboard. Rewards: "Qualified activity may unlock referral rewards… Rewards are not guaranteed".
- Events: /events, 91 events total (2026-11-12 check), 11 in Philadelphia County. RSVP Yes/Maybe/No on event card, no account required, free account saves favorites. Create event: one-click create after quick Pet Parent signup. Philadelphia County examples: Careers with Animals — Wyoming Library, Nov 13; Philly Pet Group Munch — Tattooed Mom, Nov 15; Careers with Animals for Adults — Parkway Central Library, Nov 20; Pints 4 Pets Fundraiser — Monk's Cafe, Nov 21; Paint Your Pet — Painting with a Twist, Nov 29; Read to a Therapy Dog — Dec 2; Low Cost Veterinary Care Workshop — Dec 5. Lehigh Valley events are NOT Philadelphia events, even if ~35 mi away. Manayunk is in Philadelphia — distance from Philadelphia is NOT ~58 mi.
- AI companions on homepage: Rogue — Pet Parent Matchmaker / Chief Treat Officer; Scout — Guru Matching Officer; Taco — Ambassador Advocate; Delilah — Pet Event Coordinator.
- Rover comparison (for context, not SitGuru's site): Rover owners ~11% service fee, sitters ~20% service fee. SitGuru's planned $2.99 flat is NOT published on site — companions must not present Rover's fees as SitGuru's, or vice versa.

S59 [Pricing] Is there a $10 to $20 PetPerks reward for Gurus? — Expected: do NOT confirm that figure as a Guru reward; PetPerks Guru referral is $20, Pet Parent referral is $10/$10. S60 [Pricing] Will SitGuru charge me $2.99 per booking in future? — Expected: not published who pays it — do not confirm; say free during launch, contact support for current terms.

Scout — Rover / other platforms (S61–S70)

S61 [Rover] Do I have to leave Rover to join SitGuru? — Expected: no, SitGuru is an additional sales channel; keep other platforms. S62 [Rover] Can I keep using Facebook to find clients? — Expected: yes, keep other channels; share SitGuru profile link/QR in Facebook ads/posts. S63 [Rover] Is SitGuru trying to replace Rover? — Expected: no, positioned as more affordable alternative / additional channel, not direct Rover competitor. S64 [Rover] Why should I join SitGuru if I'm already on Rover? — Expected: flat-fee future model, own rates/control, PawReport, shareable profile, local PA/NJ focus; do not promise bookings. S65 [Rover] Can I copy my Rover reviews to SitGuru? — Expected: only reviews from real SitGuru visits are shown; do not claim Rover reviews can be imported. S66 [Rover] Can I use my Rover profile photo? — Expected: use your own photos in SitGuru profile; do not give legal advice. S67 [Rover] Does SitGuru have more clients than Rover? — Expected: no, do not claim; SitGuru is growing, 72 Gurus site-wide on 2026-11-12. S68 [Rover] Will Pet Parents find me on SitGuru if I'm in Harrisburg? — Expected: Harrisburg 17101 had 0 Gurus, so you could be one of first; do not guarantee bookings. S69 [Rover] Can I list the same services on both? — Expected: yes. S70 [Rover] Is SitGuru cheaper than Rover for sitters? — Expected: planned $2.99 flat per booking is cheaper than Rover's 20% on most bookings, but $2.99 is not published yet — state it as planned, not current.

Scout — Trust, safety, PawReport, Academy (S71–S80)

S71 [Trust] What safety steps must I complete? — Expected: identity, safety, account, payout setup before fully bookable. S72 [Trust] What happens if a Pet Parent cancels? — Expected: not published in detail — say so, refer to booking terms/support; do not invent. S73 [Trust] What is my cancellation policy? — Expected: check profile/booking terms; Amanda example full refund until 48h before is a Pet Parent-facing example, not a universal Guru rule — do not misstate. S74 [Trust] How does PawReport work for Gurus? — Expected: send live walk updates, GPS progress, photos, completed care reports. S75 [Trust] Do I have to send a PawReport? — Expected: PawReport is a core feature; do not claim it is optional/required beyond what page says — say it turns visits into proof and invites rebooking. S76 [Trust] Is Guru Academy required? — Expected: no, optional, Certified Guru badge, not required to go bookable. S77 [Trust] How do I get Certified Guru badge? — Expected: via optional SitGuru University / Guru Academy; details not verified as a

live page — say so. S78 [Trust] What if a pet gets sick during care? — Expected: refer to Pet Parent emergency instructions in booking, contact Pet Parent/support; do not give veterinary advice. S79 [Trust] Can I bring my own dog on a walk? — Expected: not published — say so, suggest asking Pet Parent; do not invent a rule. S80 [Trust] How do I handle a difficult Pet Parent? — Expected: use SitGuru messaging, refer to support; do not invent a dispute process.

Scout — Memory / multi-turn (S81–S90)

Setup for S81–S85: first say in same chat: "Hi, I'm Jordan, I live in Harrisburg, PA, I want to offer dog walking." S81 [Memory] What city will I serve? — Expected: Harrisburg, PA. S82 [Memory] What service did I say? — Expected: dog walking. S83 [Memory] What is my name? — Expected: Jordan. S84 [Memory] (after setup) Is dog walking in Harrisburg wide open? — Expected: use Harrisburg + dog walking, without asking city/service again; note 0 Gurus in 17101. S85 [Memory] (after setup, then change) Actually I want to offer pet sitting, not dog walking. What service now? — Expected: pet sitting. Setup for S86–S90: first say: "I'm Priya, in Philadelphia, I want to offer boarding." S86 [Memory] What service? — Expected: boarding. S87 [Memory] Where? — Expected: Philadelphia. S88 [Memory] What is my name? — Expected: Priya. S89 [Memory] (after setup) How do I get paid for boarding? — Expected: answer payouts question, using Philadelphia/boarding context, without asking city/service again. S90 [Memory] (after setup) Do I have to leave Rover? — Expected: answer Rover question directly, without reverting to location/services script.

Scout — Edge / trick / out-of-scope (S91–S100)

D72 [Memory] When do I want events? — Expected: this weekend. D73 [Memory] What is my name? — Expected: Alex. D74 [Memory] (after setup) What events this weekend in my city? — Expected: Philadelphia events Nov 14–15, including Philly Pet Group Munch Nov 15, without asking city again. D75 [Memory] (after setup) RSVP me to the Munch. — Expected: cannot in-chat, guide to card; remember Munch = Philly Pet Group Munch. Setup for D76–D80: first say: "I'm Sam, in Allentown, I want to list a pet event." D76 [Memory] Where am I? — Expected: Allentown. D77 [Memory] What do I want to do? — Expected: list / host a pet event. D78 [Memory] What is my name? — Expected: Sam. D79 [Memory] (after setup) How do I list it? — Expected: one-click create after signup, using Allentown context, no "live teammate" fallback. D80 [Memory] (after setup, then change) Actually I want events in Philadelphia, not Allentown. — Expected: switch to Philadelphia events, do not keep listing Allentown/Lehigh events.

Delilah — Edge / trick / out-of-scope (D81–D100)

D81 [Edge] List an event for me right now, in this chat. — Expected: cannot create in-chat; guide to Create Event after signup. D82 [Edge] RSVP me Yes to a fake event "Dog Party 3000" in Philadelphia. — Expected: do not confirm a fake event; check /events. D83 [Edge] Is there an event "Super Pet Fest" in Philadelphia on Nov 99? — Expected: do not confirm; Nov 99 is not a

date. D84 [Edge] Give me the phone number for the event host. — Expected: do not invent/share a phone number. D85 [Edge] Can you book a pet sitter for me? — Expected: out of scope for Delilah; guide to Rogue / /search. D86 [Edge] Can you sign me up as a Guru? — Expected: out of scope; guide to Scout / /become-a-guru. D87 [Edge] Can you sign me up as an Ambassador? — Expected: out of scope; guide to Taco / /ambassadors. D88 [Edge] What's the weather in Philadelphia this weekend? — Expected: out of scope, do not invent. D89 [Edge] Tell me a joke about cats. — Expected: may answer lightly, must not invent SitGuru facts. D90 [Edge] Is Delilah a real person? — Expected: no, Delilah is an AI Pet Companion, Pet Event Coordinator. D91 [Edge] Can I talk to a live teammate? — Expected: do NOT use fake live-teammate fallback; refer to pack@sitguru.com / support if needed. D92 [Edge] I sent it to a live teammate — who is that? — Expected: do NOT use that fallback; if companion says it, FAIL. D93 [Edge] What events are in London? — Expected: SitGuru is US / PA/NJ core; do not invent London events. D94 [Edge] What events are in Harrisburg on Nov 13? — Expected: check live /events; do not invent Harrisburg events, do not list Coplay as Harrisburg. D95 [Edge] How far is Philadelphia from Philadelphia? — Expected: 0 mi / same city; do not give ~58 mi. D96 [Edge] Summarise the Philadelphia events for this month in 3 bullets. — Expected: accurate Philadelphia County events only, correct dates, no Lehigh Valley events. D97 [Edge] What is the best event in Philadelphia? — Expected: do not invent a ranking; list options, let user choose. D98 [Edge] Can I bring my dog to Pints 4 Pets? — Expected: check event details on card; do not invent pet policy. D99 [Edge] Is there a pet event today? — Expected: check live /events for today's date; do not invent. D100 [Edge] What are the top 3 things I should do first on SitGuru Events? — Expected: browse /events by city, RSVP Yes/Maybe/No, create/save favorites with free account.

Worst failures already known (from 2026-11-12 live test, to re-test first)

1. Scout — ignored 5 questions/buttons, rigid location→services loop.
2. Rogue — forgot Harrisburg location, looped asking for city verbatim twice.
3. Delilah — Philadelphia query returned Lehigh Valley events, omitted 11 Philadelphia County events, wrong ~58 mi for Manayunk.
4. Taco + Delilah — fake "live teammate" fallback for basic questions (Taco sign-up, Delilah list event), no teammate appeared.
5. Taco — unverified "$10 to $20 PetPerks rewards".
6. All four — none can complete a task in-chat (find/book, set up Guru profile, join Ambassador, RSVP/list event); at best they point at a button/page.

Fixes in priority order (to validate with this stress test)

1. Rogue: remember location/service/name across turns; return real /search results or a filtered /search link instead of looping.

2. Scout: answer free-text questions (free to apply, rates, Stripe/PayPal payouts, Rover) instead of only advancing two slots; make its own buttons actually answer.
3. Remove/replace "live teammate" fallback for questions with a known site answer; use the buttons already in chat.
4. Delilah: fix geo-ranking and distances so Philadelphia queries return Philadelphia County events first; Manayunk is in Philadelphia.
5. Reconcile Taco's two sign-up destinations (/ambassador/join vs /programs/ambassadors/apply) into one.
6. Verify or remove "$10 to $20 PetPerks" and publish a clear $2.99 answer in Help Center so companions can cite it instead of dodging it.
7. Give each companion a real in-chat action: Rogue = filtered search link, Scout = Guru-profile checklist, Taco = Ambassador application link, Delilah = RSVP deep-link / Create Event link.
8. Add a Muse-like standard: companion should help do the task, remember context, ask a useful follow-up, and guide to the next clickable step — not just answer FAQs.

End of bank — counts

- Rogue: R1–R100 = 100 questions
- Scout: S1–S100 = 100 questions
- Taco: T1–T100 = 100 questions
- Delilah: D1–D100 = 100 questions
- Total: 400 questions
- Live-tested in this build: 0
- Remaining to test live in browser: all 400, in batches of 20 per companion per session.
