SOCIAL MEDIA & COMMUNITY GROWTH MANAGER

Independent Contractor Services Agreement

Graff Enterprises LLC DBA SitGuru & Ava Venezia

Business agreement for independent services. Complete the open fields before signature.

Trusted Pet Care. Simplified.

Create. Connect. Grow.

1. Parties & Purpose

This Independent Contractor Services Agreement (the "Agreement") is entered into between Graff Enterprises LLC, doing business as SitGuru ("SitGuru"), and Ava Venezia ("Contractor"). Contractor will provide social media, community growth, growth research, event activation, ambassador-program development, and related leadership services under the public-facing title Social Media & Community Growth Manager.

Effective / Start Date: _____

> **Public-facing title**
>
> The use of the title Social Media & Community Growth Manager describes Contractor's functional responsibilities and authority within approved projects; it does not change the parties' independent-contractor relationship.

2. Scope of Services

Contractor is engaged to provide professional social media and community growth services. Within SitGuru's agreed strategy, approved budgets, brand standards, security requirements, and project objectives, Contractor is empowered to plan, lead, coordinate, and execute work that includes:

- Social media strategy, content planning, content creation/coordination, community engagement, campaign execution, and performance learning.
- Direct community growth planning designed to attract and convert Pet Parents, Gurus, Ambassadors, partners, and other relevant community participants.
- Community-event planning and activation, including SitGuru tent/booth display planning, signage, QR/sign-up flows, event materials, team coordination, lead capture, follow-up, and performance analysis.
- Development and operation of a scalable ambassador program that supports both in-person/person-to-person and remote/digital outreach.
- Market research and growth intelligence, including surveys, polls, interviews, feedback collection, campaign testing, and analysis of market and conversion performance.
- Day-to-day leadership of interns assigned to Social Media & Community Growth, including prioritization, assignments, project coordination, creative review, feedback, mentorship, event-role coordination, and accountability for agreed deliverables.
- Recommendations regarding tools, community partnerships, campaigns, local-market activation, process improvements, and growth experiments.

The onboarding and role charter may be used as an operating guide for these services. If a conflict exists between that guide and this Agreement, this Agreement controls.

3. Leadership & Decision Authority

For work within the Social Media & Community Growth function, Contractor may lead routine day-to-day execution and direct assigned intern project work. This authority includes assigning and sequencing projects, setting reasonable project deadlines, reviewing and requesting revisions, leading team check-ins, coordinating event roles, and approving routine work for the next stage of SitGuru's workflow.

Contractor does not have authority, unless separately authorized in writing, to hire or terminate personnel; change compensation; enter contracts; create legal obligations; approve unbudgeted material expenditures; make material policy commitments; or bind SitGuru to a partnership, sponsorship, public position, or other obligation.

4. Independent Performance of Services

Contractor will exercise independent professional judgment regarding the manner and means of performing accepted services, subject to agreed deliverables, project deadlines, brand standards, security requirements, legal requirements, approved budgets, and coordination necessary for SitGuru projects and team workflows. Contractor may propose alternative methods, tools, schedules, campaigns, and processes when Contractor believes they will produce better results.

The anticipated level of services is approximately 10-15 hours per week, depending on mutually accepted projects and business needs. This estimate is not a guarantee of a minimum number of hours and does not prevent Contractor from performing services for others, provided Contractor protects SitGuru confidential information and avoids conflicts that materially interfere with accepted SitGuru work.

5. Compensation, Invoicing & Expenses

Initial Rate: $16.75 per hour for accepted and authorized SitGuru services.

Day-60 Rate Increase: The parties intend a compensation increase after 60 days of continued engagement. The new rate will be documented in writing before it becomes effective.

New Rate: $_____ per hour **Effective Date:** _____

Invoice cadence: _____ **Payment method:** _____

Contractor will submit reasonable time and project details sufficient for SitGuru to validate invoices. SitGuru will not require Contractor to incur reimbursable expenses without prior approval. Pre-approved business expenses will be reimbursed upon submission of appropriate documentation, consistent with the approval terms provided for the project.

6. Community Events & Ambassador Activities

Contractor may coordinate community events, SitGuru displays, direct sign-up initiatives, and ambassador activities within approved project plans and budgets. Contractor may organize volunteers, interns, or other approved participants for these activities and may establish routine operating instructions consistent with SitGuru standards.

Any event contract, venue commitment, paid sponsorship, material purchase, cash incentive, reward-program change, or other commitment that creates a financial or legal obligation for SitGuru requires prior authorization from SitGuru.

7. Surveys, Polls & Growth Research

Contractor may design and conduct reasonable surveys, polls, interviews, feedback programs, and campaign tests for growth purposes using approved tools and data sources. Contractor will use research results to make recommendations regarding messaging, content, market strategy, community events, ambassador programs, acquisition, and conversion.

Contractor will not collect sensitive personal information beyond what is reasonably necessary for an approved research purpose and will comply with SitGuru instructions regarding privacy, data handling, access, retention, and publication of research findings.

8. Confidentiality & Data Security

Contractor will protect non-public SitGuru information, including business plans, product plans, source materials, customer or user information, pricing or growth data, internal communications, account credentials, marketing plans, partner information, intern information, and other information that a reasonable person would understand to be confidential.

Contractor will use individual access credentials when provided, use multi-factor authentication where supported, protect devices and passwords reasonably, and promptly report suspected unauthorized access, loss, disclosure, or security incidents. Confidential information may be used only to perform services for SitGuru unless SitGuru authorizes another use in writing.

Approved Systems, Software & Technology

SitGuru may authorize Contractor to use current or future business systems, software, platforms, applications, services, or AI-assisted tools in connection with the Services. Any systems specifically named in onboarding or operating materials are illustrative and not exclusive. Authorization may be role-based, project-specific, or task-specific and may be changed or withdrawn by SitGuru.

- Contractor will use only SitGuru-approved systems and software for SitGuru work when approval is required by SitGuru policy or the nature of the information involved.
- Approval to use a tool does not grant access to information, systems, customer data, credentials, payment information, or administrative capabilities beyond those separately authorized for Contractor's role.
- Contractor will follow applicable confidentiality, data-security, licensing, brand, recordkeeping, and access requirements when using any approved tool, including AI-assisted tools.
- Contractor may recommend additional tools or systems that could improve growth, creativity, research, analytics, community activation, Ambassador operations, or team efficiency; adoption remains subject to SitGuru approval.

9. Work Product & Brand Materials

To the extent permitted by law, work product created specifically for SitGuru and paid for by SitGuru under this Agreement - including SitGuru-specific copy, graphics, campaign materials,

event materials, research summaries, playbooks, templates, and other deliverables - will be owned by SitGuru upon payment. Contractor assigns to SitGuru any rights necessary to give effect to that ownership.

Contractor retains ownership of pre-existing materials, general skills, know-how, reusable methods, and tools that were not created specifically for SitGuru. If Contractor incorporates pre-existing material into a SitGuru deliverable, Contractor grants SitGuru a perpetual license to use that material as part of the deliverable. Contractor may not publicly display confidential or unreleased SitGuru work without written approval.

10. Independent Contractor Relationship

The parties intend and agree that Contractor performs services as an independent contractor and not as an employee, partner, joint venturer, or agent of SitGuru. Contractor is responsible for Contractor's own taxes, required filings, insurance, business expenses except approved reimbursements, and other obligations applicable to Contractor's independent business. Contractor is not eligible for employee benefits by reason of this Agreement.

Nothing in this Agreement authorizes Contractor to bind SitGuru except where SitGuru gives specific written authority for a particular matter.

11. Records, Communication & Deliverables

Contractor will maintain reasonable records supporting invoices and will keep SitGuru reasonably informed of material project status, risks, event needs, market findings, and issues that require SitGuru decisions. Routine creative and operating decisions within Contractor's scope do not require advance approval unless SitGuru has identified them as approval-required.

12. Term & Ending the Engagement

This Agreement begins on the effective date and continues until ended by either party. Either party may end the engagement by written notice. SitGuru will pay Contractor for accepted services properly performed through the effective termination date and for approved reimbursable expenses. Confidentiality, work-product ownership, data-protection obligations, and payment obligations that by their nature should survive termination will continue after the engagement ends.

13. General Terms

- Changes to this Agreement must be documented in writing and accepted by both parties.
- Contractor may not assign this Agreement to another person or business without SitGuru's written approval.
- If a provision is found unenforceable, the remaining provisions will continue to the extent permitted by law.
- Electronic signatures and counterparts may be used to sign this Agreement.
- This Agreement and any signed addenda constitute the parties' agreement regarding the services described here and supersede inconsistent prior understandings concerning those services.

Governing law / venue (if desired): _____

14. Signatures

By signing, each party confirms that it has reviewed and agrees to this Agreement and that the open business terms above have been completed or otherwise confirmed in writing.
